

The District helps with special events.....

coordination of community tree replacement projects and living snowfence
(obtained funding through MN DNR ReLeaf grants)

water stories and activities for a community summer celebration

displays at Early Childhood Family Education Family Expo – this one featured safer alternative cleaning product recipes and other ways families can reduce their impact on the environment

prairie grass rubbing (like bark rubbing) at an area National Wildlife Refuge event

Owners, managers, and staff from local businesses in Madison were invited to celebrate with SWCD and Clean Water Partnership staff and find out “how green can you go?” Coffee and treats were served at the Madison Chamber office the morning of Earth Day, coinciding with Administrative Professionals Day on April 22. Participants were challenged to go back to their workplace and make as many earth friendly choices as possible for the rest of the day.
