

## TREES FOR BABIES

Have you, or someone you know, had an addition to the family (either birth or adoption) since last spring? The Lac qui Parle Soil & Water Conservation District would like to welcome your new little member to our community with the gift of a tree! These free trees are distributed each year in April on “tree pick-up day”. Call the office for details. Families must be residents of LqP County. We hope families will enjoy watching child and tree grow together.
