

Lac qui Parle County Water Quality Management

122 8th Avenue S., #1
Madison MN 56256
Phone 320-598-7321, Ext. 3

Thank you for wanting to protect our ground water resources by sealing your abandoned well.

Our local program provides 75% cost-share, up to \$500. Cost share application forms are available by calling 320-598-7321 x 3 or visiting the office in Madison. Complete the first section of the well sealing application form to the best of your knowledge, sign and date it. Have a certified well sealing contractor complete the second section. You will be provided a list of certified well sealing contractors that work in the Lac qui Parle County area. You are not limited to working with only those on the list, but if you choose to work with another contractor, make sure they have required certification from the State of Minnesota to seal abandoned wells.

Return the application to the Water Plan Management office at the address above.

Upon notification of approval by the Coordinator, you may proceed with your well sealing project. **Projects begun before approval become ineligible for cost-share.**

There may be federal cost-share available to seal (or decommission) a well through the Environmental Quality Incentives Program (EQIP), administered by the Natural Resources Conservation Service (NRCS), also located at this address. If you qualify for federal money, it will help stretch our very limited local dollars. We can help you find out if you might be eligible.
